PAKLENICA NATIONAL PARK

HR | ENG

www.np-paklenica.hr

Rupicapra rupicapra

Nacionalni park Paklenica dio je Velebita, najduže planine u Hrvatskoj.

Datum proglašenja: 19. 10. 1949.

Površina: 95 km²

Najvažniji prirodni fenomeni: geologija i krš, prirodne šume crnog bora, šume bukve, planinski travnjaci, **dva kanjona**, divljina.

Najviši vrh: Vaganski vrh (1757 m/nv)

Medunarodna proglašenja

Ancient and Primeval Beech
Forests of the Carpathians
and Other Regions of Europe
World Heritage since 2007

2017. UNESCO-ov lokalitet svjetske baštine „Bukove pršume i izvorne bukove šume Karpata i ostalih regija Europe“ – bukove šume Nacionalnog parka Paklenica zajedno s bukovim šumama Nacionalnog parka Sjeverni Velebit.

Postanite dio života u planini i provedite svoj odmor aktivno.

Moguće aktivnosti u Nacionalnom parku Paklenica:

DOŽIVLJAJ DIVLJINE

FOTOGRAFIRANJE

PENJANJE

PLANINARENJE

ŠETNJA

Flora i fauna

Preko **1000 biljnih** vrsta i podvrsta od čega više od **80 endema** **59 vrsta sisavaca**, od čega **24 vrste šišmiša** **260 vrsta ptica** **25 vrsta gmazova** **6 vrsta vodozemaca** **85 vrsta danjih leptira**

Nacionalni park Paklenica otvoren je za posjetitelje tijekom cijele godine.

2013. Cijela površina Nacionalnog parka Paklenica postaje **NATURA 2000** lokalitet

1978. UNESCO-ov rezervat biosfere Planina Velebit – NP Paklenica zajedno s NP Sjeverni Velebit, Parkom prirode Velebit te okolnim gradovima i općinama koji gravitiraju Planini.

Spend your free time actively and become a part of the life in the mountain.

Optional activities in the Paklenica National Park:

WALKING

HIKING

CLIMBING

NATURE
PHOTOGRAPHY

EXPERIENCING
THE WILDERNESS

Flora and fauna

More than a **1000 plant** species and subspecies, more than **80 of them endemic**

59 mammal species, out of which **24 are bat species**

260 bird species

25 reptile species

6 amphibian species

85 species of diurnal butterflies

The Paklenica National Park is open to visitors all year round.

2017 UNESCO's World Heritage Site "Ancient and Primeval Beech Forests of the Carpathians and Other Regions of Europe" - both the Paklenica and the Northern Velebit National Parks' beech forests.

2013 National Park Paklenica's entire surface area becomes a NATURA 2000 site.

The Paklenica National Park is part of Velebit, the longest mountain in Croatia.

Date of proclamation: 19th October 1949

Surface area: 95 km²

Most important natural phenomena: geology and karst, natural Black Pine forests, Common Beech forests, mountain grasslands, **two canyons**, wilderness.

The highest peak: Vaganski vrh (1757 m asl)

International designations

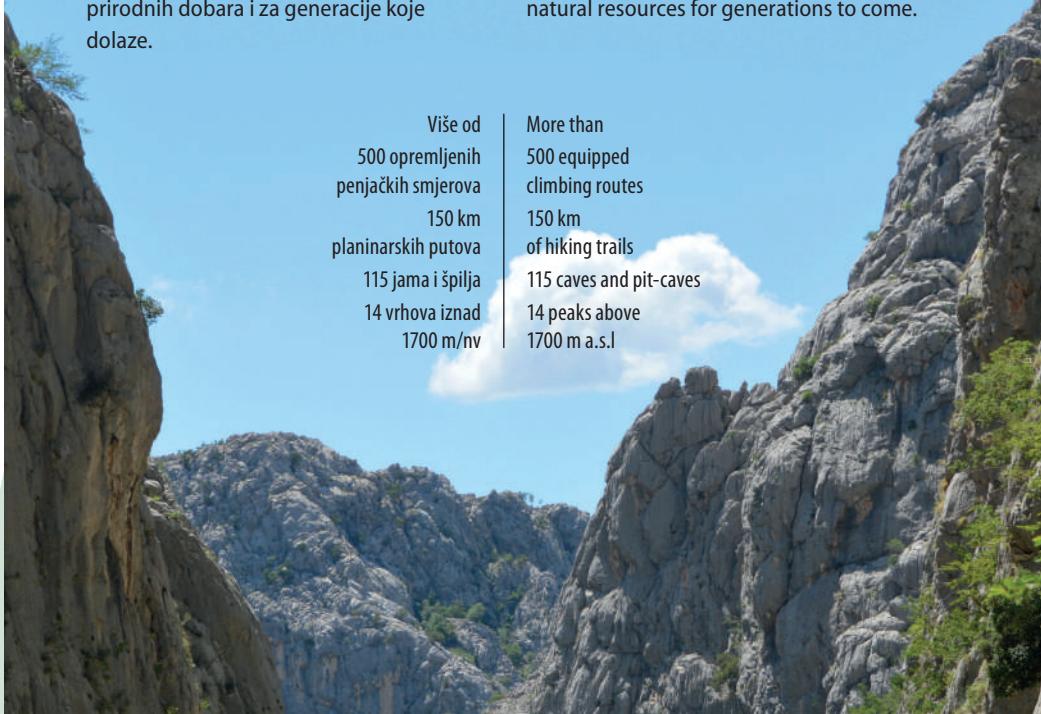

1978 UNESCO's biosphere reserve; The Velebit Mountain BR – comprising Paklenica and Northern Velebit National Parks, Velebit Nature Park and surrounding towns and municipalities that gravitate towards the mountain.

Tijekom mnogo stoljeća interakcije ljudi i prirode, Paklenica se mijenjala, no temeljni prirodni fenomeni ostali su očuvani, a svrha upravljanja Nacionalnim parkom je osigurati održivo korištenje prirodnih dobara i za generacije koje dolaze.

Paklenica has changed over the centuries of human-nature interaction, but the fundamental natural phenomena have been preserved, while the purpose of managing the National Park is to ensure sustainable use of natural resources for generations to come.

Kulturna baština Nacionalnog parka

Naseljenost i ljudska aktivnost na prostoru Nacionalnog parka može se pratiti još od mlađeg kamenog i brončanog doba do danas. Posebnost: suhozidi, obrada kamena, kamene kuće

National Park's cultural heritage

Population and human activity in the National Park's area can be traced all the way back from the Early Stone and Bronze age up till now. Specific features: stacked-stone walls, traditional stone carving, stone houses

Ulez 1 Velika Paklenica

U recepciji na Ulezu 1 možete kupiti jednodnevne ili višednevne ulaznice za posjet Parku, parkirnu kartu ako ulazite automobilom u Park te dobiti korisne informacije.

Cjenik Nacionalnog parka Paklenica dostupan je na našoj internetskoj stranici (www.np-paklenica.hr).

Koordinate ulaza: 44.294053, 15.457578

Entrance 1 Velika Paklenica

You can buy 1-day or several-day tickets for visiting the Park, a parking ticket if you're entering by car and receive useful information at the Entrance 1 reception.

The Paklenica National Park's price list is available on our website (www.np-paklenica.hr).

Entrance coordinates: 44.294053, 15.457578

Ulez 2 Mala Paklenica

Recepcija na našem drugom ulazu u Nacionalni park Paklenicu nalazi se ispred kanjona Male Paklenice u Selinama, a otvorena je tijekom turističke sezone.

Na Ulezu 2 također možete kupiti ulaznice, a one vrijede i za Ulez 1.

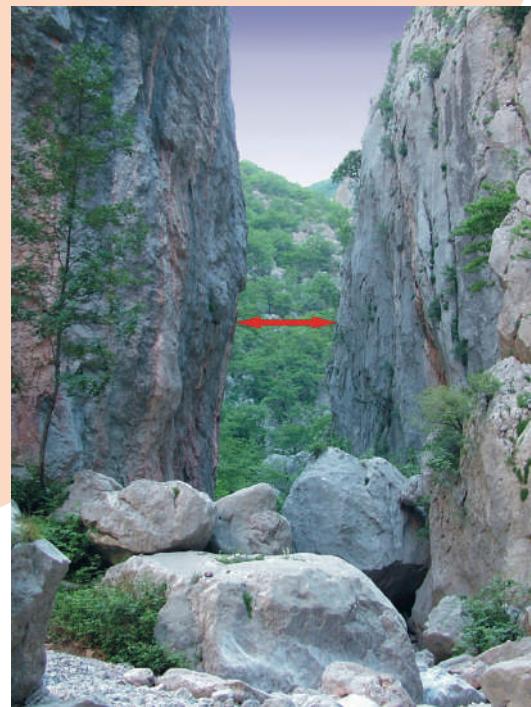

Koordinate ulaza: 44.283077, 15.49276

Entrance 2 Mala Paklenica

The reception at the second entrance to the Paklenica National Park is located in front of the Mala Paklenica canyon in Seline and is open only during the tourist season.

You can also buy entrance tickets, which are valid for Entrance 1, at Entrance 2.

Entrance coordinates: 44.283077, 15.49276

1. Etnokuća i konoba Marasović

Zaseok Marasovići zaštićeno je kulturno dobro upisano u Registr kulturnih dobara RH i svjedoči o majstorstvu klesanja kamena u podvelebitskom kraju. U zaseoku se nalazi etnokuća Marasović s konobom, a otvorena je tijekom turističke sezone.

1. Ethno-house Marasović and Marasović tavern

The hamlet Marasovići is a protected cultural good inscribed in the Registry of Cultural Goods of the Republic of Croatia and a witness to the stone carving mastery of the region below Velebit. The Ethno-house Marasović with the tavern, both of which are open during the tourist season, is located in the hamlet Marasovići.

2. Paklenički mlinovi

Potok Velika Paklenica sa svojim pritokama jedina je hidrološki značajnija površinska tekućica na južnom Velebitu. Duž potoka je tijekom 19. st. sagrađeno 13 mlinova. Danas ni jedan mlin nije u funkciji, ali mlin 150 m sjeveroistočno od Ulaza 1 je obnovljen pa ga možete razgledati prilikom posjeta Nacionalnom parku.

Tijekom sezone mlin je svakodnevno otvoren.

2. Paklenica mills

The Velika Paklenica stream with its tributaries is the only hydrologically significant surface watercourse on South Velebit. During the 19th century, 13 mills were built along the stream. None of the mills are in function today, but the mill located 150 m northeast of Entrance 1 has been renovated, so you can sightsee it during your visit to the National Park.

The mill is open every day during the tourist season.

3. Vidikovac i utvrda „Paklarić“

Vidikovac Paklarić praktičan je izbor ako želite kratkim usponom doseći pogled na more i Velebitski kanal. Uspon počinje pored obnovljenog Pakleničkog mlina nedaleko recepcije na Ulazu 1, a završava na vidikovcu (121m/nv), u neposrednoj blizini ostataka utvrde Paklarić iz 14.-16. st.

3. The “Paklarić” viewpoint and Fort

The Paklarić viewpoint is a practical choice if you want to reach a place with a view of the sea and the Velebit channel in a relatively short time. The ascent begins beside the renovated Paklenica mill, not far from the Entrance 1 reception, and ends at the viewpoint (121 m a.s.l), right near the 14th to 16th century remains of the Paklarić Fort.

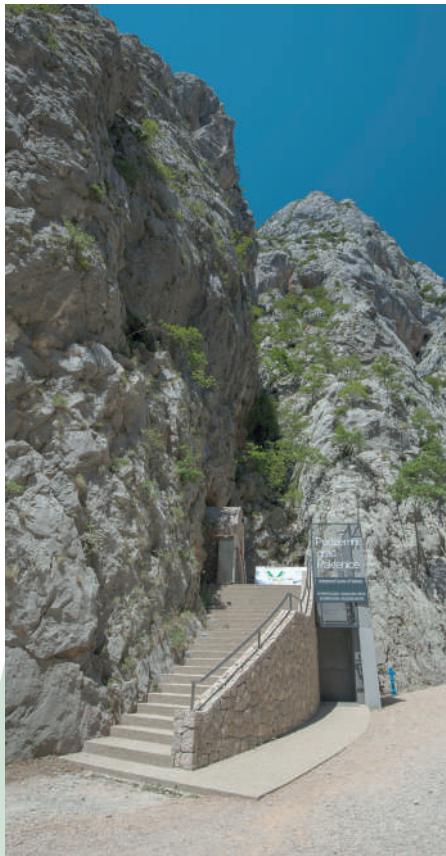

4. Poučna staza „Pjeskarica“

Poučna staza „Pjeskarica“ odličan je izbor ako se odlučite hodati kroz kanjon Velike Paklenice od Ulaza 1. Staza duga 1,5 km počinje od obnovljenog Pakleničkog mlina i vodi uz potok Velika Paklenica do parkirališta.

4. Educational Trail “Pjeskarica”

The “Pjeskarica” Educational Trail is an excellent choice if you decide to walk from Entrance 1 through the Velika Paklenica canyon. This 1.5 km long trail starts at the renovated Paklenicamill and leads along the Velika Paklenica stream all the way to the parking lot.

5. Posjetiteljski centar „Podzemni grad Paklenice“

U kanjonu Velike Paklenice, svega 5 minuta hoda od glavnog parkirališta, nalazi se kompleks tunela iskopanih u stjeni podno litica visokih do 400 metara. Podzemne tunele, popularno zvane „Bunkeri“, radila je Jugoslavenska vojska u strogoj tajnosti u periodu 1950. – 1953. godine, za vrijeme političke krize između Jugoslavije i Sovjetskog Saveza. Sve do početka 1990-ih bilo je nepoznato što se krije iza zazidanih ulaza i kompleksa tunela ukupne površine 2000 m². Danas se u podzemnim tunelima nalazi Posjetiteljski centar „Podzemni grad Paklenice“ sa svjetlosnim tunelom, izložbenim postavima, multimedijalnom dvoranom i pratećim sadržajima.

5. Visitor Centre “Underground secrets of Paklenica”

In the Velika Paklenica canyon, 5 minutes of walking time away from the parking lot, there is a tunnel complex dug out in the rocks, underneath 400 meter high cliffs. The underground tunnels, popularly called “Bunkers”, were built by the Yugoslav army in top secret over the course of 1950 to 1953, during the political crisis between Yugoslavia and the Soviet Union. It was unknown what's behind the bricked shafts and the tunnel complex consisting of a total surface of 2000 m², all the way until the beginning of the 1990s. The underground tunnels now house the “Underground Secrets of Paklenica” Visitor Center, which includes a light tunnel, exhibition area, multimedia hall and accompanying facilities.

6. Penjalište

Kanjon Velike Paklenice najpoznatije je penjalište u Hrvatskoj, poznato i među penjačima diljem Europe. Posebnu čar ovom penjalištu daju 400 m visoke stijene kanjona, potok Velika Paklenica, blizina parkirališta i morske obale. Na penjalištu je uređeno više od 500 smjerova različitih težina i dužina, pa možete birati želite li penjati kratke ili duge sportske, neopremljene ili tehničke smjerove.

6. Paklenica climbing site

The Velika Paklenica canyon is the most famous climbing site in Croatia, known to the climbers from all over Europe as well. This climbing site's special charm comes from the high canyon cliffs, the Velika Paklenica stream, close proximity of the parking lot and the seashore. There are more than 500 equipped routes of different lengths and difficulties, so you can choose if you want to climb short or long sport, unequipped or aid routes.

7. Špilja Manita peć, 570 m/nv

Manita peć jedina je špilja uređena za posjećivanje. Izlet do Manite peći potrebno je unaprijed planirati te se u planinu uputiti dovoljno rano da biste je stigli posjetiti jer je špilja otvorena svega nekoliko sati dnevno. Za uspon do špilje trebate oko 1,30 h hoda od glavnog parkirališta u kanjonu Velike Paklenice. Na ulazu u špilju dočekat će vas naši vodiči s kojima idete u razgled špilje u grupama. Obilazak traje oko 30 minuta, a završava na istom mjestu gdje ste i ušli. Do špilje je potrebno doći najkasnije pola sata prije završetka radnog vremena.

Ako sa sobom vodite psa, molimo da uzmete u obzir da će vas on zbog osjetljivog špiljskog ekosustava te obilaska u grupi morati pričekati ispred špilje.

Obilazak se naplaćuje, a ulaznice kupujete ispred špilje.

Naplata se vrši isključivo gotovinom. Radno vrijeme špilje možete provjeriti na našoj internetskoj stranici (www.np-paklenica.hr) i na Ulazu 1.

7. Manita peć cave, 570 m asl

The Manita peć cave is the only show cave, made accessible to the public for guided visits. You should plan the visit to the cave in advance so you could start hiking early enough, because it is open only for a few hours a day. To reach the cave you need approximately 1.30 h of walking from the main parking lot in the Velika Paklenica canyon.

Our guides will welcome you at the cave entrance and accompany you in the cave in groups. The tour takes about 30 minutes and ends at the same place where you entered. It's necessary to arrive at the cave at least half an hour before closing time. If you're bringing a dog with you, please take into consideration that he'll have to wait for you in front of the cave, because of the group tour and the sensitive ecosystem inside the cave.

We charge for the tour, and the tickets can be bought in front of the cave.

Payment is made in cash only. Cave working hours can be checked at our website (www.np-paklenica.hr) and at Entrance 1.

8.

Šumarska kuća Lugarnica

Lugarnica je jednostavni ugostiteljski objekt, nalazi se neposredno uz potok Velika Paklenica pored glavne planinarske staze. Udaljen je oko 4 km od glavnog parkirališta, a ako se s parkirališta uputite ravno u Lugarnicu, do nje stižete za otprilike 1,30 h.

U Lugarnici možete podići energiju čajem, turskom kavom i hladnim pićem ili naručiti neko od jela iz ponude. Naplata usluga vrši se u gotovini pa vas molimo da je ponesete prilikom kretanja u planinu.

8.

Lugarnica forest cottage

Lugarnica is a simple catering object, located right next to the Velika Paklenica stream beside the main hiking trail. It is 4 km away from the main parking lot, and if you go straight to Lugarnica from there, you should arrive in about 1.30 h.

At Lugarnica you can lift your spirits with tea, Turkish coffee and cold drink or order some of the dishes on the menu. Payment is made in cash only, so we suggest you to bring it along when you leave for the mountain.

Cinclus cinclus

Plecotus kolombatovici

Accipiter nisus

9. Planinarski dom Paklenica

Uz potok Veliku Paklenicu, oko 6 km od glavnog parkirališta nalazi se planinarski dom koji vodi i održava Planinarsko društvo Paklenica iz Zadra. Ako se do Doma uputite ravno s parkirališta, trebali biste stići za otprilike 2 sata hoda.

Dom je otvoren tijekom cijele godine, preporučujemo da se informirate o slobodnim ležajima telefonski, pozivom na +385 23 301 636 (Planinarsko društvo Paklenica, sjedište u Zadru) ili pošaljete upit na e-mail: dom.paklenica@gmail.com

9. Paklenica mountain lodge

The mountain lodge, operated and maintained by the Paklenica Mountaineering club from Zadar, is located along the Velika Paklenica stream, about 6 km away from the main parking lot. If you go straight to the lodge from the parking lot, you should arrive in about 2 hours of walking time. The lodge is open all year round, so we recommend you inform yourself about free beds over the telephone, by calling +385 23 301 636 (Paklenica Mountaineering club, seated in Zadar) or sending an inquiry by e-mail: dom.paklenica@gmail.com

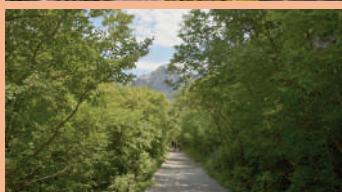

10. Zaseoci Ramići i Parići

Lokalni stanovnici obnovili su svoje stare kamene kuće te u njima nude ugostiteljsko-turističke usluge posjetiteljima Parka. Kuće se nalaze oko 7 km udaljene od Ulaza 1.

10. Villages Ramići and Parići

Local residents renovated their old stone houses where they now offer catering and tourism services to the Park's visitors. The houses are located about 7 km away from Entrance 1.

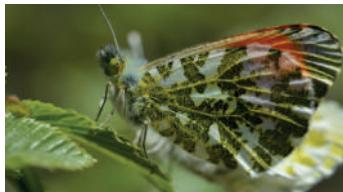

Savjeti i pravila:

- U planinu uvijek podđite s društvom.
- Izaberite stazu koja odgovara vašoj trenutnoj fizičkoj spremi.
- Za odlazak u planinu prikladno se obucite, nosite cipele za planinarenje, udobnu i prikladnu odjeću te zaštitu od sunca.
- Obavezno ponesite vodu za piće.
- Provjerite vremensku prognozu.
- Ponesite sanitetski materijal za prvu pomoć.
- U Nacionalnom parku krećite se isključivo po obilježenim stazama i putevima.
- Zbog visokog rizika od požara u Nacionalnom parku ne palite vatru, ne bacajte opuške, šibice ni staklo
- Otpad i smeće ponesite natrag sa sobom.
- Poštujte lokalne običaje i tradiciju.
- Doprinesite da voda i vodotoci ostanu čisti i ne zagađeni.
- Kampiranje na području NP Paklenica nije dozvoljeno.
- Područje NP Paklenica zakonom je zaštićeno pa vas molimo i podsjećamo da:
ne oštećujete i ne kidate biljke, ne plašite, ne uzinemiravate, ne lovite i ne ubijate bilo koju vrstu životinja.
- Držite kućne ljubimce na uzici.

Rules and advice:

- Avoid hiking alone.
- Select a trail that suits your current physical fitness and abilities.
- Wear appropriate clothing, hiking shoes, comfortable and proper clothing and sun protection when going into the mountains.
- Make sure to bring water with you.
- Check the weather report.
- Bring a first aid kit with you.
- Move only along marked trails and routes while in the National Park.
- Because there is a high risk of fires in the National Park, do not make fires, throw cigarette butts, matches or glass.
- "Bring in-bring out". Take the rubbish with you.
- Respect local customs and traditions.
- Help us keep the water and the watercourses clean and unpolluted.
- Camping is not allowed in the National Park area.
- The area of the Paklenica National Park is protected by law, so we request and remind you:
to refrain from harming and picking plants, scaring, disturbing, hunting or killing any animal species.
- Keep your pets on a leash.

Dragi posjetitelji, molimo vas da kupite ulaznicu i na taj način, zajedno s nama, dopriňete trajnom očuvanju, zaštiti i unaprijeđenju prirode Nacionalnog parka Paklenica. Molimo da ulaznicu čuvate do kraja posjeta, kako bi je na zahtjev službenih osoba mogli pokazati.

Dear visitors, please buy the entrance ticket and by doing so, help us preserve and protect the nature of the Paklenica National Park. Please keep your ticket until the end of your visit, so you can show it to the official staff upon their request.

Glavno parkiralište

Od Ulaza 1 možete se voziti kroz kanjon još 2 km do parkirališta gdje prestaje cesta i počinje glavna pješačka staza koja vodi jednim od najatraktivnijih dijelova Nacionalnog parka, kanjom Velike Paklenice. Kad se glavno parkiralište popuni, ostala vozila se parkiraju niz pristupnu cestu te oko Ulaza 1. Za parkiranje motornih vozila plaća se naknada prema cjeniku, u recepciji na Ulazu 1.

Main parking lot

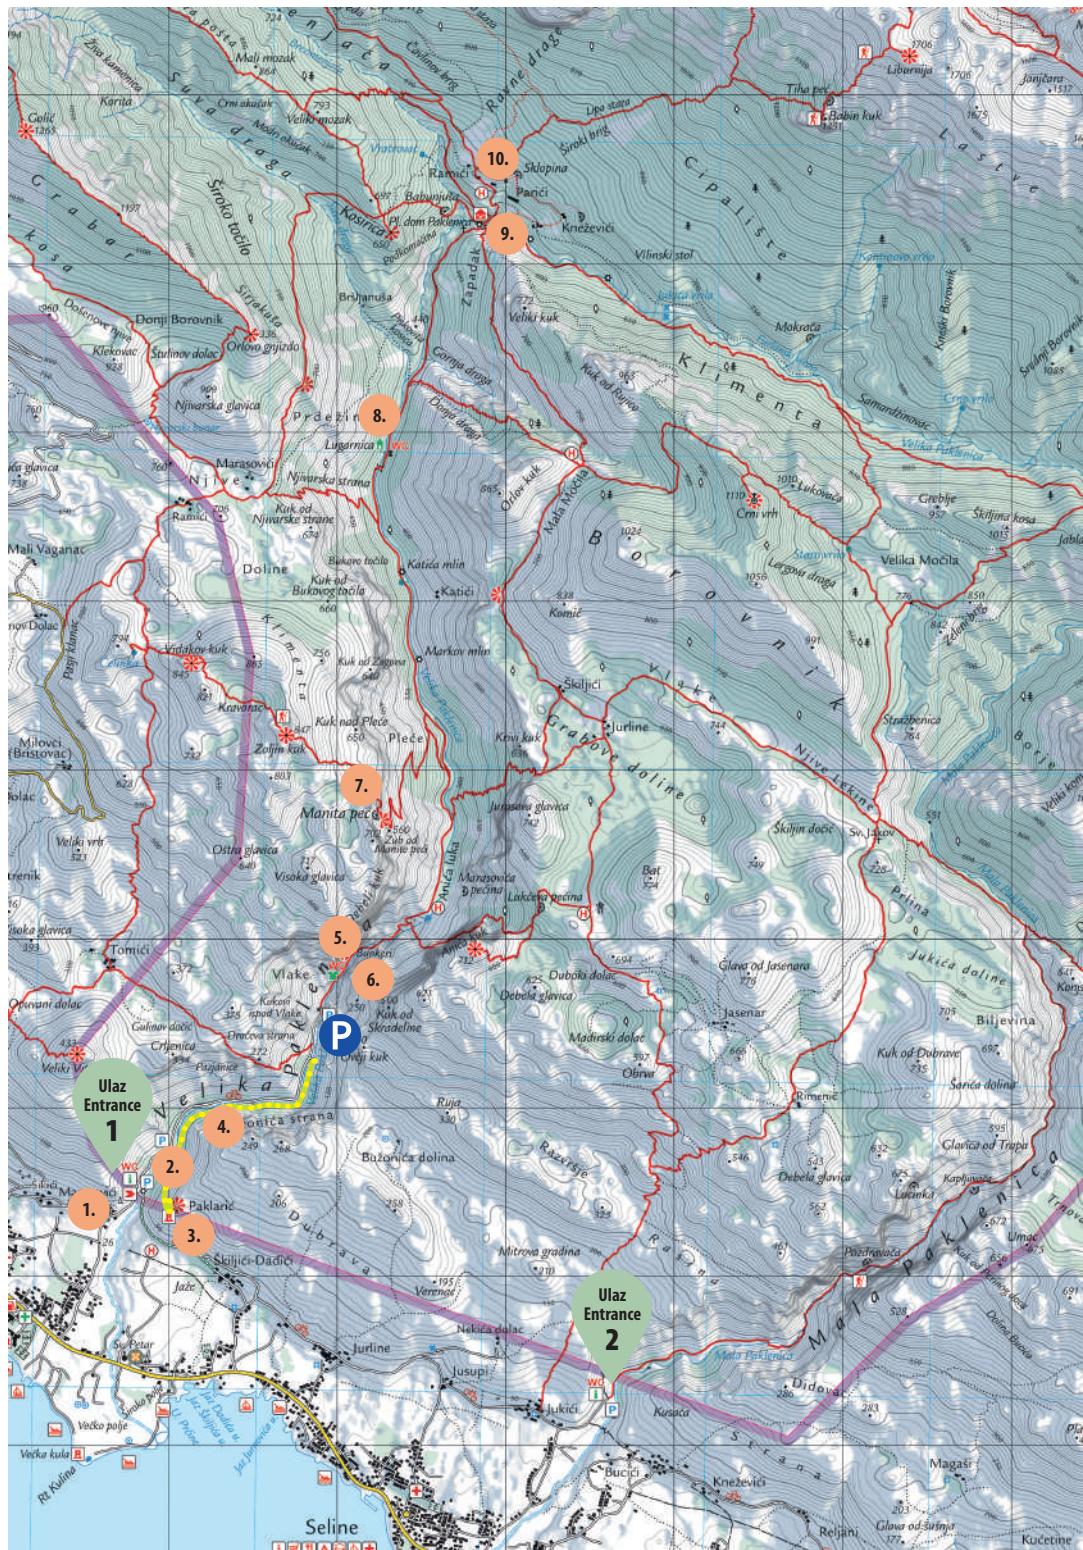

You can drive from Entrance 1 for 2 km through the canyon to reach the parking lot where the road ends and the main walking trail, leading one through the Velika Paklenica canyon, which is one of the most attractive parts of the National Park, starts. When the main parking lot is filled, the rest of the vehicles are parked along the access road and around Entrance 1. There is a fee according to the price list for parking motor vehicles, which can be found at the reception at Entrance 1.
