## PAKLENIČKI MLINOV

2.

Potok Velika Paklenica sa svojim pritokama jedina je hidrološki značajnija površinska tekućica na južnom Velebitu. Duž potoka je tijekom 19. st. sagrađeno 13 mlinova.

Danas nijedan mlin nije u funkciji, ali mlin 150m sjeveroistočno od Ulaza 1 je obnovljen pa ga možete razgledati prilikom posjeta Nacionalnom parku. Tijekom sezone mlin je svakodnevno otvoren.

## PAKLENICA MILLS

*The Velika Paklenica stream with its tributaries is the only hydrologically significant surface watercourse on South Velebit. During the 19th century, 13 mills were built along the stream.*

*None of the mills are in function today, but the mill located 150 m northeast of Entrance 1 has been renovated, so you can sightsee it during your visit to the National Park. The mill is open every day during the tourist season.*

## VIDIKOVAC I UTVRDA „PAKLARIĆ“

3.

Vidikovac Paklarić praktičan je izbor ako želite kratkim usponom doseći pogled na more i Velebitski kanal.

Uspon počinje pored obnovljenog Pakleničkog mlinu nedaleko recepcije na Ulazu 1, a završava na vidikovcu (121m/nv), u neposrednoj blizini ostataka utvrde Paklarić iz 14.-16. st.

## THE “PAKLARIĆ” VIEWPOINT AND FORT

*The Paklarić viewpoint is a practical choice if you want to reach a place with a view of the sea and the Velebit channel in a relatively short time.*

*The ascent begins beside the renovated Paklenica mill, not far from the Entrance 1 reception, and ends at the viewpoint (121 m a.s.l.), right near the 14th to 16th century remains of the Paklarić Fort.*

## POUČNA STAZA „PJESKARICA“

4.

Poučna staza „Pjeskarica“ odličan je izbor ako se odlučite hodati od Ulaza 1 kroz kanjon Velike Paklenice.

Staza duga 1,5 km počinje od obnovljenog Pakleničkog mlinu i vodi uz potok Velika Paklenica do glavnog parkirališta.

## EDUCATIONAL TRAIL “PJESKARICA”

*The “Pjeskarica” Educational Trail is an excellent choice if you decide to walk from Entrance 1 through the Velika Paklenica canyon.*

*This 1.5 km long trail starts at the renovated Paklenica mill and leads along the Velika Paklenica stream all the way to the parking lot.*

**POSJETITELJSKI CENTAR  
„PODZEMNI GRAD  
PAKLENICE“**

5.

U kanjonu Velike Paklenice, svega 5 minuta hoda od glavnog parkirališta, nalazi se kompleks tunela iskopanih u stijeni podno litica visokih do 400 metara.

Podzemne tunele, popularno zvane „Bunkeri“, radila je Jugoslavenska vojska u strogoj tajnosti u periodu 1950. – 1953. godine, za vrijeme političke krize između Jugoslavije i Sovjetskog Saveza. Sve do početka 1990-ih bilo je nepoznato što se krije iza zazidanih ulaza i kompleksa tunela ukupne površine 2000 m<sup>2</sup>.

Podzemni tuneli prenamijenjeni su u posjetiteljski centar u kojem se, uz multimedijalnu dvoranu i izložbene postave, nalaze suvenirnice i caffe bar Bunker.

**VISITOR CENTRE  
“UNDERGROUND  
SECRETS OF PAKLENICA”**

*In the Velika Paklenica canyon, 5 minutes of walking time away from the parking lot, there is a tunnel complex dug out in the rocks, underneath 400 meter high cliffs.*

*The underground tunnels, popularly called “Bunkers”, were built by the Yugoslav army in top secret over the course of 1950 to 1953, during the political crisis between Yugoslavia and the Soviet Union. It was unknown what's behind the bricked shafts and the tunnel complex consisting of a total surface of 2000 m<sup>2</sup>, all the way until the beginning of the 1990s.*

*Underground tunnels have been reconstructed into a visitor centre where, besides a multimedia hall and museum exhibitions, there is a souvenir shop and a caffe bar Bunker.*

Kanjon Velike Paklenice najpoznatije je penjalište u Hrvatskoj, poznato i među penjačima diljem Europe.

Posebnu čar ovom penjalištu daju 400 m visoke stijene kanjona, potok Velika Paklenica, blizina parkirališta i morske obale. Na penjalištu je uređeno više od 500 smjerova različitih težina i dužina, pa možete birati želite li penjati kratke ili duge sportske, neopremljene ili tehničke smjerove.

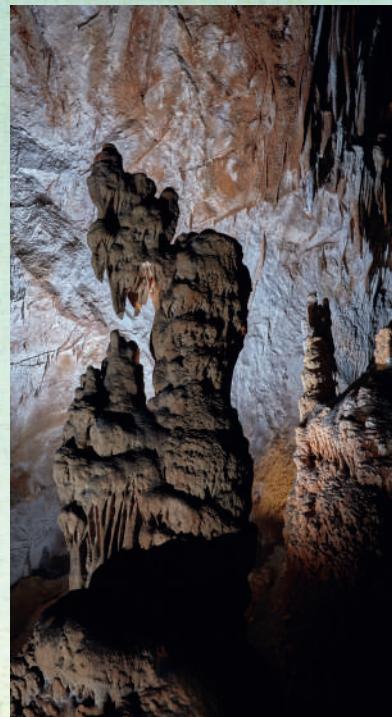

Na penjalištu možete iznajmiti i kompletну penjačku opremu.

*The Velika Paklenica canyon is the most famous climbing site in Croatia, known to the climbers from all over Europe as well.*

*This climbing site's special charm comes from the high canyon cliffs, the Velika Paklenica stream, close proximity of the parking lot and the seashore. There are more than 500 equipped routes of different lengths and difficulties, so you can choose if you want to climb short or long sport, unequipped or aid routes.*

*It's also possible to rent out a full set of climbing gear at the climbing site.*

## ŠPILJA MANITA PEĆ, 570 M/NV

Manita peć jedina je špilja uređena za posjećivanje. Izlet do Manite peći potrebno je unaprijed planirati te se u planinu uputiti dovoljno rano da biste je stigli posjetiti jer je špilja otvorena svega nekoliko sati dnevno.

Za uspon do špilje trebate oko 1,30 h hoda od glavnog parkirališta u kanjonu Velike Paklenice. Na ulazu u špilju dočekat će vas naši vodiči s kojima idete u razgled špilje u grupama. Obilazak traje oko 30 minuta, a završava na istom mjestu gdje ste i ušli. Do špilje je potrebno doći najkasnije pola sata prije završetka radnog vremena. Ako sa sobom vodite psa, molimo da uzmete u obzir da će vas on zbog osjetljivog špiljskog ekosustava te obilaska u grupi morati pričekati ispred špilje. Obilazak se naplaćuje, a ulaznice kupujete ispred špilje.

Naplata se vrši isključivo gotovinom. Radno vrijeme špilje možete provjeriti na našoj internetskoj stranici ([www.np-paklenica.hr](http://www.np-paklenica.hr)) i na Ulazu 1.

## MANITA PEĆ CAVE, 570 M ASL

*The Manita peć cave is the only show cave, made accessible to the public for guided visits. You should plan the visit to the cave in advance so you could start hiking early enough, because it is open only for a few hours a day.*

*To reach the cave you need approximately 1.30 h of walking from the main parking lot in the Velika Paklenica canyon. Our guides will welcome you at the cave entrance and accompany you in the cave in groups. The tour takes about 30 minutes and ends at the same place where you entered. It's necessary to arrive at the cave at least half an hour before closing time. If you're bringing a dog with you, please take into consideration that he'll have to wait for you in front of the cave, because of the group tour and the sensitive ecosystem inside the cave. We charge for the tour, and the tickets can be bought in front of the cave.*

*Payment is made in cash only. Cave working hours can be checked at our website ([www.np-paklenica.hr](http://www.np-paklenica.hr)) and at Entrance 1.*
